Louie,  
In glancing over the draft Work Plan, I noted that there is no mention of Pedzeh Ki's referral of the developments. This should appear in Section 2, Chronology of Events (page 3). Although an EA would have begun regardless, it is important to note their concerns. Alternatively, had NNPR not requested a referral, an EA would have begun on Pedzeh Ki's request, so they should be treated as equally important.

Thanks,  
Doug
