**Subject:** Consolidated Gold Win Ventures Land Use Application MV2003C0003

You indicated in previous correspondence that you were calling for submissions by the 16th of May with respects to this Land Use Application.

Please advise me of what other submissions have been received and forward them to me so that I can initiate any rebuttals of "mis-spoken" Statements.

I have cc this memo to various other concerned parties and if others should be informed please advise.

I would like to have an update on the proposed board meeting and would like to attend and discuss the MVLWB Decision to refer with respects to the concerns I have raised about this process being usurped for "other purposes."

To date no one has addressed this issue!

Sincerely,

Laurence Stephenson  
Consultant  
Cons. Gold Win Ventures
