Note to File

To all parties:

RE: Parties' deadline for MVH information requests

This note to file is a reminder to parties that the Review Board has not yet chosen a revised deadline for submitting information requests on the Online Review System (for the first round of information requests). For now, parties should ignore alerts from the Online Review System about this. The deadline extension was communicated in the Review Board's Notice of Proceeding dated April 24, 2024 ([Public Registry #200](#)).

Responses to the three overarching information requests from the developer are due June 19, 2024. The Review Board will work on a revised workplan once these answers are received and assessed. The revised workplan will be released in early July.

The primary contact on behalf of the Review Board for the Mackenzie Valley Highway (MVH) project is Senior Environmental Assessment Advisor Catherine Fairbairn (867-766-7054, cfairbairn@reviewboard.ca).
