Meeting ID: 821 2109 5089

Purpose: The Mackenzie Valley Environmental Impact Review Board (the Review Board) is hosting re-scoping sessions in communities to reflect changes in the project scope proposed by the Government of the Northwest Territories (GNWT, the developer) in its [letter about the expansion of the proposed Mackenzie Valley Highway](#). These sessions are an opportunity for community members to:

- validate existing items on the Terms of Reference, and
- share ideas, issues, concerns, questions and comments about how the extended route to Inuvik may change what should be required in the Terms of Reference.

Interpretation will be available.
