Dear Catherine and Clémentine:

Thank you for the information regarding the October 1, 2026 technical re-scoping session for the Mackenzie Valley Highway environmental assessment.

The Ehdiitat Gwich'in Council confirms that it intends to participate in the October 1 technical session. I will attend virtually on behalf of EGC. EGC President Michael Greenland may also participate virtually and can be reached at president@ehdiitatgwichin.ca.

EGC received the recent information concerning the October 1 session late and was therefore unable to respond by the September 15 date identified in the September 11 Note to File. We are providing our response at the earliest opportunity. EGC does not object to the October 1 session proceeding and intends to participate actively in the re-scoping discussion.

We understand that the purpose of the session is to identify and prioritize issues arising from the proposed extension of the project and to assist the Review Board in updating the Terms of Reference. Given the substantial expansion of the proposed project, we would appreciate receiving the agenda, updated project description, and any technical or other materials that parties are expected to consider sufficiently in advance of the session to allow for meaningful review and preparation.

EGC's participation in the October 1 session is without prejudice to the comments or concerns it may raise during the session or subsequently through the Review Board's written comment process regarding the scope of the environmental assessment and the revised Terms of Reference.

Please provide the virtual meeting information when it becomes available and include both myself and President Greenland on further correspondence and materials relating to the October 1 session.

Thank you.

Wayne Drury
On behalf of the Ehdiitat Gwich'in Council
