Good afternoon Mark,

Sincere apologies for the delay in responding. I thought I had successfully reset my subscriptions last month with the roll-out of the new Review Board website system however it must have not worked properly for EA2425-02. I believe I have it sorted out now moving forward.

Imperial plans to submit a self-referral request for MVEIRB to initiate an EA for the closure and reclamation of the NWO by Monday, March 31<sup>st</sup> at the latest. Please don't hesitate to reach out if there are any questions in the meantime.

Kind regards,

**Benjamin Fraser**
